KEEP THEM  
**HAPPY FROM  
THE CORE**

**83%**  
of pet owners report  
pet digestive health  
as extremely or  
very important<sup>1</sup>

**58%**  
of pet owners choose food  
over medication for improving  
digestion in their pet<sup>1</sup>

<sup>1</sup>Pet Parent Data: "Consumer Trends Driving Pet Food Development Globally", BENEQ, 2019

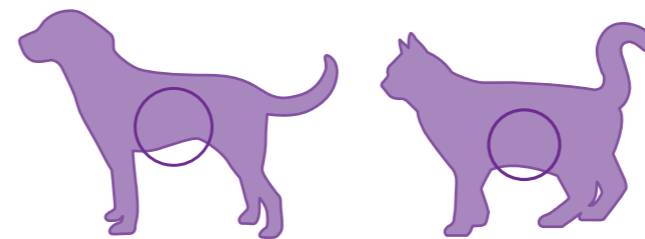

### Understanding the gut microbiome

Every pet has a unique gut microbiome — their own ecosystem composed of millions of bacteria and other microorganisms. Through extensive research, experts at Hill's have determined that tipping the scale toward favourable bacteria activity, can result in significant digestive health benefits.

◀ **Hill's ActivBiome+** ingredient technology is the direct result of that science — a revolutionary blend of prebiotics that rapidly nourishes the microbiome for digestive health and well-being.

## WHEN TO RECOMMEND HILL'S DIGESTIVE PRODUCTS
